

We offer comprehensive line of power supplies and controllers suitable to work with all types of brakes and clutches that we sell. Technical data can be found in catalogs from Magneta, Intorq, Miki Pulley and Regent Controls. These catalogs can be downloaded from links on the right. For professional advice please call our application support group at 973-584-4539. Moenninghoff products work excellent with power supplies made by Miki Pulley.
